# *WE HELP THE WORLD'S LEADING ARCHITECTS & DESIGNERS BRING THEIR UNIQUE VISIONS TO LIFE.*

At Tectura Designs®, we don't say no in response to big ideas.

We've had no place for that word since the day Ed Creske founded the company as Wausau Tile & Terrazzo in 1953. And looking back, there was no way we wouldn't succeed.

Over time, as innovation and customer demands drove us this way and that, tile led to terrazzo stair treads. Extra cement from those treads led to experimenting with pavers. Pavers led us to precast concrete. And when a new chain named McDonald's needed furniture, even though we didn't make furniture, we sketched it out right on the spot, on a napkin. That first table gave way to a new site furnishings division.

Before we knew it, Wausau Tile introduced Tectura Designs.

Forward-thinking architects and designers began to take notice, and soon enough there was no end in sight. From Mount Rushmore to Times Square, our elegant and durable pavers, custom precast concrete, site furnishings, custom precast terrazzo and terrazzo tile have made legendary public places even more beautiful.

The name Tectura Designs represents an undying commitment to quality craftsmanship and attentive service. Our promise is innovation, because your visions demand it, and there's no other way to bring big ideas to life.

Let's reimagine what's possible. Together, there's no limit to what we can create.

# BECOMING TECTURA DESIGNS: A TIME-HONORED COMMITMENT TO INNOVATION

Tectura Designs' origins date back to 1953, when a terrazzo contractor named Ed Creske founded the business as Wausau Tile & Terrazzo in his two-car garage. It wasn't long before Wausau Tile added site furnishings to its impressive portfolio, and the name became synonymous with strength and longevity – traits exemplified by its high-quality, durable site furnishings.

Over the ensuing decades, as Wausau Tile continued to demonstrate its undying commitment to quality and innovation, a new brand was born. Tectura Designs emerged as the new name for America's premier architectural products, and with it came a slew of site

furnishings that brought modern, mixed-material style to the often overlooked, functional pieces that every project demands.

Tectura Designs' design-forward products are still made by our team of skilled and dedicated craftsmen near Wausau, Wisconsin.

Our promise is built on a long and proven heritage of excellence. Yet our attention is always fixed on the future – on innovation, collaboration and our invitation to bring your next project to life.

WAUSAU TILE & TERRAZZO CO.

# OUR SITE FURNISHINGS

Instantly elevate outdoor spaces with Tectura Designs' full line of contemporary metal or concrete site furnishings, all made in the USA. Capture attention with bold benches, sleek tables, blooming planters, and immovable bollards. Tie a project together with

distinctive bike racks, snuffers and waste containers. Find the perfect centerpiece, add an elegant finishing touch, or provide the inspiration for a one-of-a-kind custom design. Whatever your vision calls for, set your sights higher with stylish site furnishings from Tectura Designs.

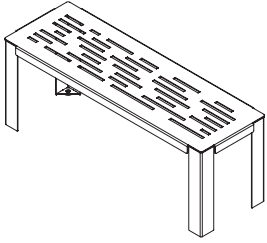

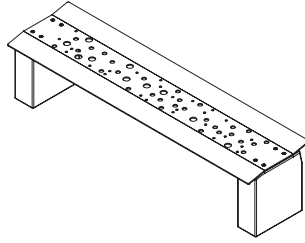

## METAL SEATING & TABLES

Capture the looks that encourage passersby to sit down and stay awhile with Tectura Designs' bold and durable coated-steel seating and table offerings. These colorful pieces create inviting environments and feature dynamic designs you simply won't see anywhere else.

# COLLABORATION SERIES

*COMBINING AWARD-WINNING  
DESIGN WITH UNMATCHED  
CRAFTSMANSHIP*

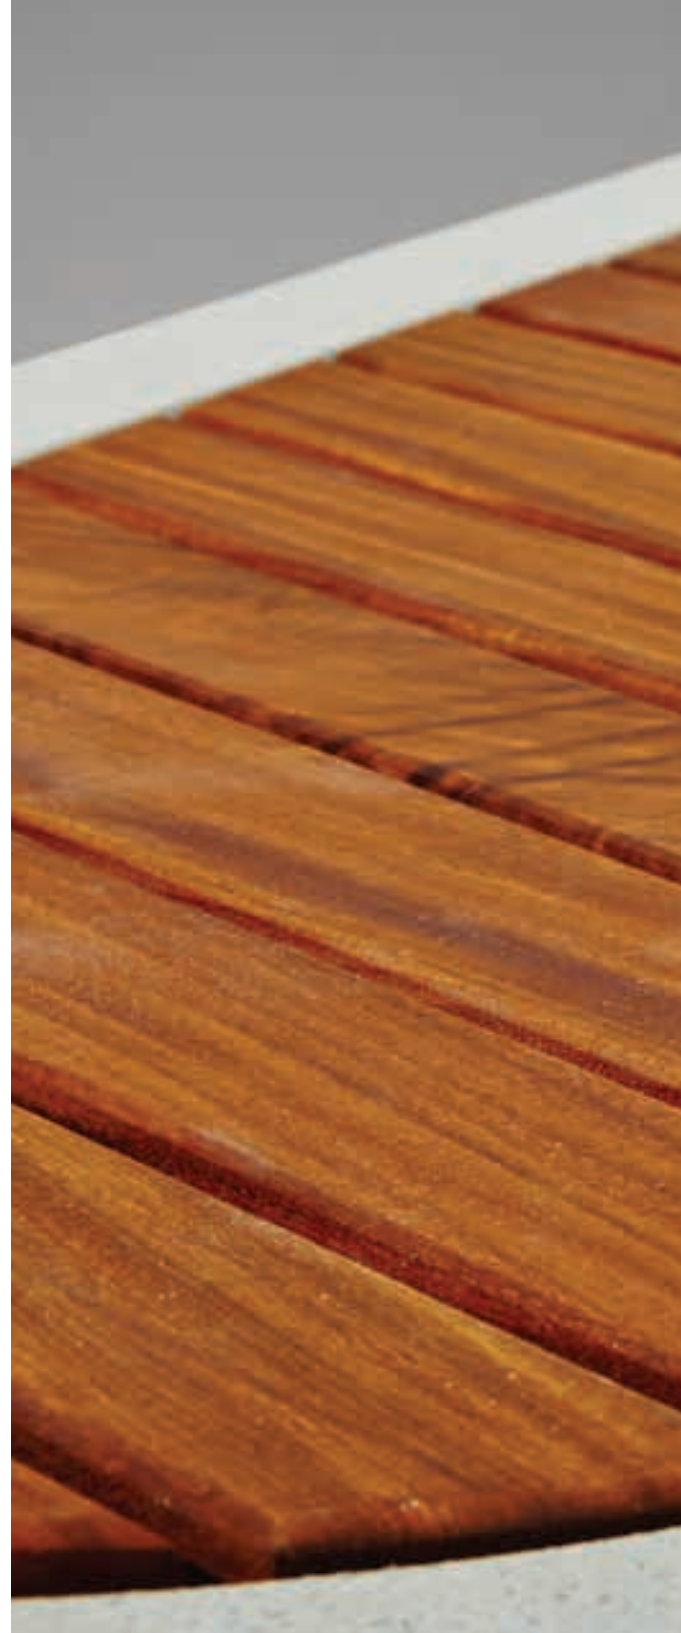

Tectura Designs' Collaboration Series features elegant and stylish designs from the award-winning landscape architects at Damon Farber. This exclusive line marks a first-of-its-kind collaboration that joins Tectura's technical prowess and custom capabilities with a team of renowned designers. The result was a stunning collection of site furnishings that feature unique combinations of concrete, metal and wood, and modular designs that can be scaled to meet the needs of any project. The Collaboration Series features a number of bold and distinctive pieces that seamlessly blend with one another for endless combinations and one-of-a-kind projects.

# BENCHES & PLANTERS

## *COLLABORATION SERIES*

Let visitors to your next architectural project nestle in to the sculptural Nest bench, whose innovative design features seating on both the interior and exterior. Let them settle in the symmetry of the Boomerang, or plant for an afternoon in the futuristic Pod, which doubles as a protective bollard. These are just a few of the sleek and modular benches in our new Collaboration Series, which also features combination benches and planters.
